You can find words easily because dictionaries put them in alphabetical order. The word 'dictionary' comes from the Latin 'dictio' ('saying').** **There are several types of dictionaries. Dictionaries which explain words and how they are used; dictionaries which translate words from one language to another; dictionaries of biography which tell about famous people; and technical dictionaries which explain the meanings of technical words.** **Dictionaries which explain what words mean give a clear 'definition' of <u>them</u>. A good dictionary also gives more information about words. For instance, it explains how they are pronounced.** **Usually the International Phonetic Alphabet (IPA) is used for this purpose. There are also dictionaries which translate words into other languages. When using a dictionary to find out how to say something in another language, one has to be careful to choose the right meaning.** **<u>True/False</u>** **30.Since dictionaries put words in alphabetical order, you can find them easily.** **A.True B.
