For many people, their teenage years – from 13 to 19 – are sometimes the best or worst years of their lives. Sometimes some teenagers feel that there are many differences between them and their parents. Teenagers often want to show that what they do is correct. They want to wear different clothes to show that they are free. In some countries, they can drive when they are only 16. Many young people work at part – time jobs after school and on weekends, so they can buy their own cars. After finishing high school, some of them live in their own apartments. Still teenagers must know that their parents have a lot to share with them: their life experiences, their failures, and their success. They should respect and care for their parents as parents are the best support in their lives.
